Dear Sirs:

i live in an area that is only 1 hour from dallas but gets very poor am radio reception. It is important that i know the dallas traffic situation before i leave my house in the morning. Until XM traffic radio, i was at the mercy of whatever situations happened and had to always leave early to assure my arrival. With XM traffic radio, i know the traffic early instead of having to drive 'in range " of a station and wait 15 minutes to find out what is happening on the freeways. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that i need and deserve.

Thank you

Tom Lorren
